CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit derived from thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, confirmed benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud upon the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine, has gradually become the best reliance of the afflicted, from the log cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, *Cherry Pectoral* is known as the best remedy extant for diseases of the Throat, and Lungs—and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice; as the surest remedy their attending Physicians can employ, for the more dangerous affections of lungs. Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The *Cherry Pectoral* is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

PREPARED AND SOLD BY J. C. AYER,

DRUGGIST and CHEMIST, LOWELL, MASS.

Sold at wholesale and retail, by INGRAHAM & FULLER, also by G. W. Emerson, A. P. Guild, G. F. Sargent, Druggists, Bucksport; D. L. Bradley & Co., Belfast, Wm. O Poor; Ellsworth, B. Nourse; Hampden, Isaac Snow, and by the Druggists generally throughout the country.

RAIL-ROAD STOVE!

IN offering this truly elegant and durable new Stove to the public we feel confident we are offering as good a Stove as has ever been introduced into this market. We do not claim perfection for it, but we are confident it has no superior in this or any other market, either in durability of material beauty of design economy in fuel, or convenience in construction. The Castings are smooth and heavy, and are all warranted. The conveniences for Boiling and Baking are extensive, and for Broiling it surpasses any thing we have ever seen,—carrying off all the smoke and coolest, and for Broiling it surpasses any thing we have ever seen,—carrying off all the smoke and steam

We manufacture them in this city, and can furnish any person at any time, thereby saving the time and expense of procuring them from abroad.

Please call and examine them before purchasing.

ALSO—

A great variety of other Stoves, such as the GRANITE STATE, the BAY STATE improved, the Constitution, The FORREST QUEEN, &c. &c. Also—all kinds of Elevated Oven Cook Stoves.

ALSO—

Franklin, Cylinder Box, Sheet and Cast Iron AIR-TIGHT STOVES; Stove Pipe, Zinc, Chain and Cast Iron BUMPS; Sheet Lead, &c. &c. All the above articles will be sold at as low prices as the same quality of goods can be bought at any other Store in the city

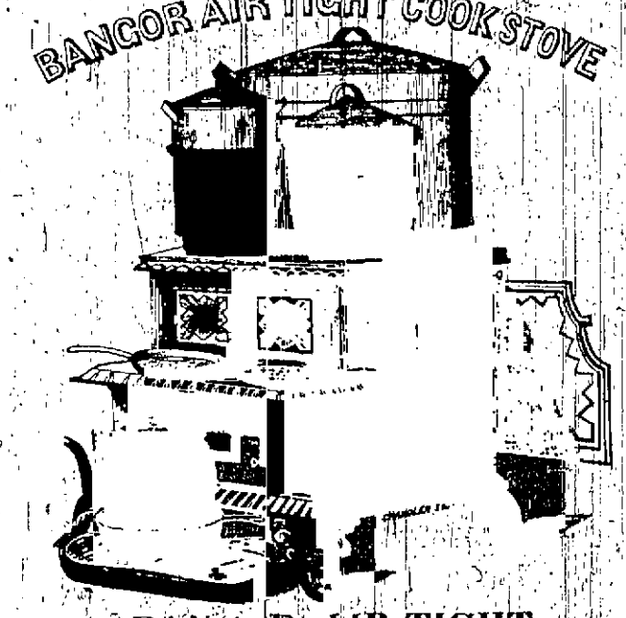
BANGOR AIR TIGHT COOK STOVE



BANGOR AIR-TIGHT

COOKING STOVE!

THE best Cook Stove ever introduced to the public, is offered.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers Messrs. Easton & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and as eminently above every other Cooking apparatus ever introduced. Its conveniences for Boiling, Baking, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth cylinders, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All of any of which will be sold at extremely low prices.

ALSO—

Elevated Oven Stoves—Hampden and 3 Boiler and two Oven—Boston two oven Stoves, Forrest-Queen &c—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove or Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot

CULVER'S COAL FURNACE

Is acknowledged to be the very best Furnace for Coal ever introduced

PROUTY & MEAR'S

THE GREAT REMEDY FOR

Coughs, Colds and Consumptions

The VEGETABLE PULMONARY BALSAM is probably worthy of a parallel in having, during a period of more than Twenty-five years, fixed and maintained the high reputation which it has acquired for CONSUMPTIVE COMPLAINTS and all DISEASES of the LUNGS, THROAT and CHEST. It has been used with probably greater success than any other article known, and Physicians who have had an opportunity of witnessing its truly astonishing effects, recommend it as a safe and very effective low medicine, equal if not superior, to any other preparation for the above complaints within their knowledge. The basis of this Balsam was a private recipe of a distinguished Physician in one of the neighboring States, and was presented by an individual to whom it gave the most astonishing relief. It is composed of vegetables, and if used according to directions, must be perfectly safe.

From Messrs. Allen, Spear & Co., Merchants, Cincinnati.—Those persons who have used the Vegetable Pulmonary Balsam uniformly speak of it as a valuable medicine, and from the quantity sold, notwithstanding the numerous other preparations used for similar complaints, we consider it first in the list.

Respectfully &c, ALLEN & CO

The Editor of the *Seneca Falls Courier* says:—"We have had occasion to witness the good effect of the Vegetable Pulmonary Balsam in this family, in case of a Scrofulous lady, who has been very much afflicted with consumption by the use of it, and also in severe coughs and colds, and cheerfully bear testimony to its being a safe, convenient and very efficacious medicine in cases of that description.—Ed Courier.

A Clergyman from Philadelphia writing, says he has been in the habit of using the Vegetable Pulmonary Balsam for himself and family, for the last thirteen years, and can recommend it to public notice, and considers it an invaluable remedy for all pulmonary complaints.

"For the last five years of my practice I have had the satisfaction to witness the beneficial effects of Vegetable Pulmonary Balsam in many cases of that acute pain, and other affections of the lungs. I would therefore confidently recommend its use in all complaints of the chest, as being equal, if not superior, to any other medicine with which I am acquainted.

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Ratchet and Spiral Trusses,

457 *Washington Street*, 457,

BOSTON.

ALL the various approved trusses constantly on sale. Ladies waited on by Mrs CAROLINE H FOSTER, who has had twenty years experience in the business.

Strangers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, it being 457 opposite to the subscriber's residence 407, where he will keep a full supply of Ready Made Trusses, for Gentlemen and Ladies, Youths and Infants. An optional Supports of five or six different kinds, such as Hull's, Chapin's Spiral Corset, Fuch's, Ingalls's, &c. &c.

☞ Ladies waited upon by Mrs. Caroline H. Foster at the above place.

The following certificate from Dr. John C. Warren of Boston, was given 20 years since, but will last forever:

Boston January 7, 1850

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skillful workman in recommending Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster, to supply the deficiency occasioned by the death of Mr. Heath. After satisfying myself that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur, I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles

JOHN C WARREN, M. D. Boston.

Certificate. The following certificate is from Professor Stuart, of Andover Theological Seminary:

The undersigned having occasion to employ Mr. J. Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted, with that and similar complaints. Mr Foster's success in the manufacture and adapting them to the body, giving ease and comfort to the wearer, surpasses (as far as our experience goes) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr. J. C. Warren, is a sufficient guaranty for all who may favor Mr. F. that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation M. STUART

City Improvements.

The present season has been marked beyond any previous year, for some time, by improvements both public and private. The private improvements have been numerous in the erection of dwellings, stores, churches, and the new fitting and extensive repairs upon buildings of various kinds. Great attention has also been paid to the laying out of fruit and ornamental gardens and in the reclaiming and improvement of the heretofore waste land in the suburbs.—These improvements have contributed very essentially to the good appearance of the city, and prove beyond all question the growing ability of our citizens to engage in such enterprises, and above all, their increasing faith in the resources of our city for business; in the generous returns which the soil will yield, and the sufficiently genial character of our climate not to disappoint the reasonable expectations of those who fearlessly trust to it.

There has been a marked improvement within a few years and particularly within the last, in the agriculture of our city. The farmers are prosperous and they find that their pursuit when diligently followed yields them a handsome return for their investments, and their labors. They have for the most part cleared themselves from the palsy of debt which has heretofore clogged their efforts, and are getting well to do and prosperous. Let any one ride upon the great avenues leading from our city, and they cannot but be gratified with the general air of neatness and thrift every where visible. Let the inquiry be made regarding the present condition and prospects of these farmers and it will be found that they are really prosperous and are making handsome accumulations.

Among the business men and the mechanics of our city there is a general state of prosperity. Most of them own their own neat dwellings and are able to command their own business and to make investments of portions of surplus capital in navigation, in railroad, gas company, insurance and bank stock. In all these matters a very great and a very favorable and hopeful change has come over the community of Bangor.

There has been too, a fair increase in the population of Bangor, growing out of the business prospects of the city, and out of the social and educational and religious advantages here offered. These by very many are regarded, and very justly, of transcendant importance without which all other considerations would be deemed unworthy of attention.

That these are likely not soon to diminish in their influence we are assured from the fact that within the last year the sum required for the full endowment of the several professorships of the Theological Seminary has been obtained and that matter will no longer rest as a burden upon the community. Two new churches, large, well located and beautiful, are in a state of great forwardness, and also a handsome chapel for social worship. The last year has also witnessed many cheering indications of the progress of religion in the application of the truths of the gospel to the hearts of many of our people.

A large and convenient school house for the accommodation of the High Schools, which is an honor to our city has been erected.

No wasting disease has appalled the community by its sudden attacks, or by hurrying large numbers to the grave. A general state of health has prevailed and the social condition of the people is generally satisfactory.

The movements which have been made in behalf of uniting our city with the railway system of the United States have so far proved successful as to result in the letting out the road to be constructed from this city to Waterville, and that road will be speedily constructed. This will open up to our city a large and valuable business with the territory on the West and Northwest and bring back a portion of trade which was formerly enjoyed by our people but which has for a time been diverted by the construction of the railroad from Portland to Waterville.

The employment of men in the construction of the road, the laying out of the necessary grounds, and the erection of the required Station buildings, will give an increased spur to business and a new stimulus to labor. Bangor must be preparing herself for the increase of business—she must devise liberal things for the future which is so hopefully opening up before her.

Not this alone. For while the iron horse is preparing to enter the city from the West and infuse new life into that whole region of country, encouraging labor, awakening enterprise and unfolding natural resources which have lain dormant; there is also a movement at the East, so important in its character, so well assured in its strength and feasibility, as to render it next to certain that a railroad will be constructed from this city to the eastern boundary of the State, and that great region of country between the Penobscot and the St. Croix rivers, will be awakened into new life and activity and usefulness, and its resources be made at once available for profitable business.

Nor is this all. The great region North of this city embracing nearly a third of the State included within which is the Slate and iron region, and which finds its natural outlet at this city; and which is already peopled by an industrious and thriving population, is eager to avail itself of the best means of getting its surplus productions to market. This people cannot expect, as yet, to avail themselves of the advantages of railroads, but they cannot so far overlook their wants as to disregard the spirit of the railroad enterprise and to suffer the great loss in transportation which is required of them in ascending all the highlands in the county, because the settlers chose to erect their dwellings upon hill tops, or because county Commissioners prided themselves in running out roads by the straight line of the compass instead of regarding the conformation of the earth. It has been discovered at length that the grade of a road is of much more consequence than the line of the road. The water was the first traveller from the highlands to the sea, and by following its paths as the natural course, and only varying where art could improve upon nature for human travel, it has been found that even a railroad may pass through the white hills and that a good and easy road may be made from the best region North of this city without climbing over the highlands in Charleston, or overcoming other elevations of similar difficulty. The engineer is the live man of these times. ... ries with him the key of material progress. The mighty changes which have been wrought under his guidance in railroad enterprises, have shed a new and vivifying light over the whole community. The teamster, within his limits, becomes an engineer. He cannot day after day and month after month, urge his team to take a load up a great ascent and down a descent without the thought urging itself upon him that it would be better to find a level road around the base of the hill and that possibly the distance would not be greater around the hill than over it. These are the common sense and practical views which are now taken all over the land, and no where, probably, with greater force than with the large population north of this city and whose products of Slate, and iron and lumber and farm produce, agricultural implements and such like, seek Bangor for a market. They have been for sometime seeking out the means of relief and as they find them, and find the community able to effect the alterations, they are demanding and securing them.

While our citizens are waking up to the necessities and the duty of making provision for increased business by means of the railroad enterprises already secured and prospective, there has been commenced a work of great importance to the business of our city, and to all the great region North of us, whose incoming business cannot fail to be greatly augmented by the other enterprises on foot. An avenue has been laid in the valley of the Kenduskeag, and workmen are now engaged in its construction which obviates all the difficulties of overcoming the highlands in the vicinity, as the road passes down the gorge at their base, on the bank of the stream, similar to the manner in which the railroad is laid out through the gorges of the White Hills. This avenue gives an easy grade into the city, and when it shall be completed and the improvements made in bringing the road through the gorge of the Charleston hills, and around the base of a few hills in other towns, and the tops of a few sharp pitches be cut down, the great mass of the travel, with loaded teams, certainly throughout all the region North of the city will be found pouring down this easy avenue.

These changes are, to be sure, occasionally very annoying to individuals, because they effect unfavorably their personal interests. A man who has a tavern perched on the top of a high hill greatly prefers that the travel should continue to come to him, instead of sliding away so very easily around the base of the hill, and down the valley to the great mart of trade. Similar it is with those who have been accustomed to be cheered by the sight of travel past their dwellings; but these are all minor matters to the interests of the whole great community. The spirit of our times requires that advantage be taken in all directions of nature and art in lessening the expense of transportation. This equalizes the condition of the people, and the value of the land and labor and property of the country. Unnecessary expense in transportation operates as a clog to business and enterprize. A strong instance of this has recently come to our knowledge, in which the products of two apple orchards, in Somerset county, has been sold this season for two and a half cents a bushel, while those apples in this city would have sold for sixty cents a bushel.

We cannot but deem it a matter of prudent foresight, and wise forecasting and right action, that our city authorities have this year laid out two public squares, when, in one instance, at least, it could be done to advantage, and in laying out and providing for the construction of the Kenduskeag Valley Avenue, for the incoming and increasing business of our city, and of those it will accommodate, especially when they do so with the advantage of those specially interested in property in the vicinity paying a large sum towards the construction of the road.

This public enterprize we deem intimately connected with the general railroad and other business enterprizes of the city, as demanded by the present and increasing wants of the city, and those having business with the city, and one which may safely be left to time and experience to vindicate in the public mind and public approbation.

"There is that scattereth, and yet increaseth; and there is that withholdeth more than is meet but tendeth to poverty."

☞ We have not thought it worth while to number our columns with the return of votes in the several towns in this State. There is a plurality of ten or twelve thousand votes in favor of the election of Pierce and King, and with such a result it is of little consequence as to the particular loss and gains in the towns.

The electoral vote of the United States is as follows: The whole number, being equal to the representative and senatorial delegations, is 296; of which Pierce has 263, Scott 18, and two States, Florida and Tennessee, having together 15 votes, yet doubtful. The Democrats will have most of the State Legislatures, and a large majority in both Houses of Congress. So much for the result.

☞ In the communication of our correspondent yesterday on the subject of Truant Boys there was a slight omission in the print. He stated that he found the boys in his Dove-Cot, during school hours, and they informed him that it had been visited the night previous with a light.

We trust that the facts he has stated will have an influence with our people. There is a class of boys, very young, growing up in our city in a life of idleness, profanity and crime. The evil calls loudly for a remedy.

☞ City Marshal, Farnham, on Saturday last seized five barrels and one keg of liquor on the wharf of Ricker & Jewett, and also two flour barrels containing a keg of fifteen gallons of liquor each at the Steamboat wharf. The liquor is unclaimed and will probably be condemned and destroyed.

Departure of the Gold Hunter—List of Passengers.

The bark Gold Hunter, fitted out for San Francisco, by James Dunning, Esq., of this city, for passengers only, after being detained for several days at Belfast waiting suitable wind and weather, finally sailed on her voyage on Wednesday last.

She has a fine company of passengers, men of sober life, whose good conduct at Belfast, attracted general attention and occasioned many favorable remarks. There are also several ladies and children. This company possess among them a good share of talent, to sustain with ability conversation and useful discussion. They possess also good musical ability as performers and singers and can get up very interesting concerts. They have the means of making the voyage highly agreeable if they are disposed to "luff and bear away" to suit any of the nervous exigencies arising in a long and somewhat wearisome voyage.

Capt. Nickerson is a thorough seaman and an accomplished gentleman, and his officers are men every way competent to the discharge of their duties.

A Successful Atmospheric Railway.

To the French belongs the credit of having brought to a successful issue the experiment of an atmospheric railway on a large scale. This mode of propelling cars has been adopted at St. Germain, a city about 15 miles from Paris. The distance run is five miles and a half,—the last half mile with an ascent of 3½ per cent. The ascent was too great to be overcome by an engine in all weathers. The following description of the machinery employed is given by a foreign correspondent of the *Ohio State Journal*:

"An iron tube is laid down in the centre of the track, which is sunk about one-third of its diameter in the bed of the road. For a distance of about 5500 yards the tube has a diameter of 1½ feet, the ascent here being so slight as not to require the same amount of force as is required on the steep grade ascending to St. Germain, where the pipe for a distance of 3800 yards is 2 feet 1 inch in diameter.

The manner of applying the atmospheric pressure to the propulsion of the train is exceedingly simple. The air is exhausted from the entire length of the tube, so as to produce a perfect vacuum, just before the arrival of each train, which is every half hour, by means of powerful and beautiful engines, somewhat resembling those at Fairmount. These engines are placed, two of two hundred horse power at St. Germain, and one each at the towns of Nanterre and Chatou, in the valley towards Paris.

To each engine is adapted two large cylinders which exhaust fourteen cubic feet of air per second. The pressure in the air cauldron (chaudieres) attached to the exhausting machines is equal to six absolute atmospheres. It will be readily understood that when this long tube is completely exhausted of air, if a piston so so nicely adjusted to the size of the tube as to render it air-tight, is allowed to go loose at one end, it will rush through to the other end to fill up the vacuum. To apply the motive power, therefore, to the propulsion of the train, it is only necessary that this piston be attached to the train of cars in such a way as to drag them along after it.

This was the great difficulty to encounter, but so admirably and so simply was this overcome, that the engineer assured us that an accident of any kind seldom ever occurred. Throughout the entire length of the tube, a section is made in the top, leaving an open space of about five inches. In each edge of the section there is an offset, to catch the edges of a valve which fits down upon it.

This valve is made of a piece of sole leather half an inch thick, having plates of iron attached to it on both the upper and corresponding under side to give it strength to resist the pressure of the vacuum, which we perhaps one fourth of an inch in thickness. They are not quite as wide as the leather, but wide enough to touch the offset in the section.

The plates are about nine inches long, and their ends, above and below, are placed three-quarters of an inch apart, forming joints, so as to give the leather valve pliability, and at the same time firmness to resist the powerful atmospheric pressure which is brought to bear on it when the air is exhausted. The entire length of the valve, from one end of the tube to the other, is attached to one side, like a cellar door, for example.

From the back side of the piston, a strong iron rod passes up through the aperture, which is made by raising up the edge of the valve, and is attached to the bottom of the foremost car. As fast as the piston passes along, the valve is released from pressure behind it, the loose edge is liberated, and the bar of iron which is attached to the car a foot or more behind the piston meets with no obstruction to its passage.

The pressure of the atmosphere on the valve in front of the piston, where the vacuum still exists, is so great that there is no danger of the bar of iron exerting pressure so far forward as to loosen the pliable valve; but to render the matter more certain, and to obviate all doubt, a slide on the bottom of the car slips along on the iron plate of the valve over and in advance of the piston, and presses firmly down. Every part of the tube is kept well oiled. The rate at which trains ascend varies from fifteen to 20 miles the hour, according to the load.

When we went up, there were six cars very well filled with passengers. After the ascent commences, two bridges across the Seine, and one viaduct of twenty feet high and wide arches, are crossed, and one long tunnel through the brow of the hill and under the King's terrace is passed, where the road is parabolically curved.

The road has now been in operation 5 years, and so safely and so well has it worked that the experiment is regarded as entirely successful. The cost of the entire machinery was eleven millions of francs. The cost of working it, or the dividends which the road pays, I did not ascertain."

Two More States for Scott.

The Democrats of Tennessee and Kentucky now concede that both have given small majorities for Scott.

FROM SOUTH AMERICA. The following letter will show that Earthquakes and Civil Wars are not all the calamities they have to provide against in that quarter of the world. Diseases incidental to our own climate, also find their way there, as will be seen by the remedy they seek for protection.

To Dr J. C. Ayer &c

Valparaiso, Chili, S. A., July 20, 1852.

Dear Sir: We have the pleasure to report in your shipment of Cherry Pectoral to our house, the whole quantity sold, and a pressing demand for more, which must await the arrival of further supplies. Its success in curing diseases of the lungs, and its consequent notoriety, has exceeded any medicine ever used in this country. Most of our remedies here are imported from England, and some of them are rich and valuable, but no product of medical skill from that or any other quarter has ever won so fully the confidence of our population as this beautiful preparation of yours.

The article has attracted particular attention among our most distinguished citizens, from the fact that General Bulnes, President of the Republic, and the highest officer in the state, was cured of a severe and dangerous affection of the lungs, by its use. He allows us to use his name, and wishes to add the acknowledgment of gratitude for his relief.

We have the honor to be, sir,

Very respectfully,

Your obedient servants,

CARLOS ALVAREZ & Co

"I DIGEST." Such is the true meaning of the word "PEPSIN," or of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr J. S. HOUGHTON, of Philadelphia, from the fourth Stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach. No art of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH. See the figure of the Ox, in another part of this paper.

A CARD.

MRS. WINSLOW TO THE LADIES.

Mrs Winslow, an old and experienced nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for Children teething. It will immediately relieve them from pain, allay all spasmodic action, soften the gums, reduce inflammation, and is sure to regulate the Bowels. Depend upon it Mothers, it will give rest to yourselves and relief and health to your children.

Price 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup during the past six years, several thousand the last year. We believe it the best medicine in the world for Children teething or for the cure of Dysentery and Diarrhoea in Children whether it arises from teething or any other cause. It gives universal satisfaction—never heard a complaint from any one using it—never sold a medicine so universally successful in allaying pain and affecting cures—relief is absolutely sure.

CURTIS & PERKINS, Druggists, Bangor, Me.

Sold by Agents in nearly every town in the State.

Thousands have been cured, why may not you by the

Cramp and Pain Killer.

The world is astonished at the wonderful cures performed by the CRAMP AND PAIN KILLER prepared by CURTIS & PERKINS. Its equal has never been known for removing pain in all cases, for the cure of spinal complaints, cramp in the limbs and stomach, rheumatism in all its forms, billious cholic, burns, sore throat, and gravel, it is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed by any medicine are on circulars in the hands of Agents—you may be positively sure of *relief*, if you use it.

N. B.—Be sure and call for CURTIS & PERKINS' Cramp and Pain Killer. All others bearing this name are base imitations, and will deceive and injure the patient.—Price 12½, 25, 37½ cts per bottle, according to size. Sold by Agents in nearly every town in the State.

H. G. FARRELL'S

CELEBRATED ARABIAN LINIMENT

Is well known to possess the most wonderfully healing, penetrating, and stimulating properties and by its promptness in effecting cures, which previously had resisted all other medicines, administered by the most scientific physicians, has placed it far beyond any similar remedy ever introduced to the people of the United States. It stimulates the absorbents to increased action, and thus enables nature to throw off disease—it penetrates to the bones, adding strength and activity to the muscles—it is powerfully anodyne and thereby allays nervous irritation, producing a delightfully pleasing sensation through the whole frame. Owing to its antiseptic properties, it purifies and neutralizes that poisonous, corrosive principle which renders old ulcerous sores so difficult to heal: it therefore is peculiarly adapted to their speedy cure. This Liniment from its penetrating and strengthening qualities has been found to be a specific for Paralysis or Palsy, Whiteswellings and diseased joints, and in fact all complaints involving the muscular system. It has cured cases of Rheumatism of twenty to thirty years' standing, and affections of the Spine wherein the entire spinal column was so crooked and distorted, that the patient could not walk erect and without artificial support. Numerous cases of Palsy have been cured when the flesh had withered, leaving nothing but the dried skin and bone, and the limbs it is of inestimable use or feeling. For children with Croup it is of inestimable value, rubbed and bathed over the throat and chest—If applied freely on the chest it never fails to give relief in the severe coughs attending Consumption, Asthma and Colds. It heals wounds speedily—will cure Scaldhead, Mange, etc. Planters and Farmers will find it a most valuable medicine to be applied to Horses and Cattle for Sprains, Bruises, Lameness, Evil Joints, Sweeney, Dry Shoulder, Wounds, Burns, Splint, Chafes or Galls, Hard and Knots on the flesh, etc.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious article has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail; Bangor. Also by R. F. Kinsell, Oldtown. French & Hamilton, Dexter. Geo. Parcher, Ellsworth. P. O. Flaherty, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell, as above, accompanied with good reference as to character, responsibility, &c.

Massachusetts Election.

BOSTON, Nov. 9.

John H. Clifford, the Whig candidate for Governor, has received 3000 majority in the city of Boston, and is largely ahead in all the towns heard from, but as a majority of the votes is required there probably will be no choice of Governor by the people. Mr. Clifford has been run in Boston as a Whig, and opposed to the liquor law.

The Union ticket for Representatives in Boston, has been elected with a few exceptions.

7 o'clock, P. M. No choice of Governor—Legislature doubtful.

Attempted blow up of the N Y Herald,

An unsuccessful attempt to blow up Bennett's New York Herald, by an infernal machine, some time since, is now reported at length in that paper.

Success of a first rate Whig!

C. B. Washburn, whig, brother of Hon. Israel Washburn, Jr., has been elected to Congress in the Galena district, Illinois over Campbell, democrat. This is cheering news, as no better man or better whig lives than Washburn.

To the American People.

ASTONISHING HOME PRODUCTION FOR THE CURE OF *Coughs, Colds, Asthma and Consumption.*

HARDY'S Great American Remedy for Coughs, Colds, Asthma and Consumption, has now proved itself, beyond a question, (and I will submit the test to any regular, scientific physician, to whom I may make known the ingredients of which it is composed,) far, before any other article, which is advertised as a ready prepared medicine, for the complaints above named.

Do not imagine that because it has not some unintelligible, foreign name, or does not purport to have sprung into existence beyond the Atlantic or the Pacific, (perchance the juice of some wonderful tree or plant tapped and extracted by the hands of Hygeia herself,) that it can have little merit, but on the contrary, be proud to try a home production which emanated from the Laboratory of one of your own (State of Maine) Physicians, of extensive learning, long practice and deep in the knowledge of medicine and his profession. Thousands of dozens of bottles of this medicine have been sold within two or three years; indeed its gigantic preponderance in the scale of reputation, demand, and actual use, makes it certain that it has no equal. Try it, Americans, and upon its own intrinsic merits let it stand or fall. It should be kept by every family.

Price 37½ cents per bottle, at HARDY'S, No 3 Harlow's Block, and at most of the Druggists in Maine. oct14 WM. G. HARDY.

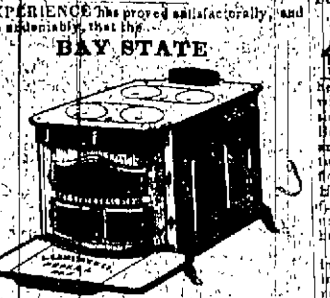
THE BEST STOVE in the Market!

EXPERIENCE has proved satisfactorily, and undeniably, that the

BAY STATE



COOKING STOVE,

(For which the subscriber is Sole Agent,) is the very best Cooking Stove ever invented, surpassing in its cooking apparatus—boiling, broiling, baking, &c., &c., all competitors, as well as in smoothness and thickness of Castings: durability and economy. The fact that more than 25,000 are sold per annum, is of itself proof positive of its superior excellence.

Over 300 have been in use in this city and vicinity for upwards of three years without requiring repairs, for which purpose the undersigned has castings constantly on hand.

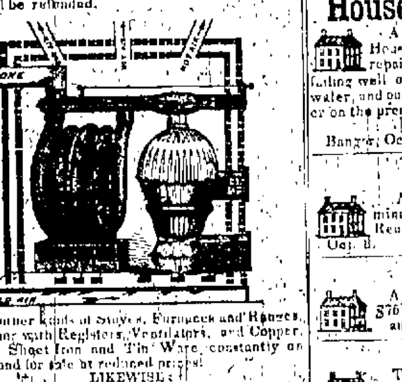
One great advantage possessed by the Bay State over all other Stoves, of whatever description (to which advantage public attention is particularly invited,) and which enables it to bake equal to the very best brick oven is the improved and durable and economical character of its fire plate, being of great thickness and composed wholly of one casting requiring less fuel than other Stoves, and baking with great evenness and expedition.—This advantage will be appreciated by all intelligent housekeepers and cooks.

The Bay State is of six sizes, varying from $15 to $50.

THE WARRANT!

TAKE NOTICE.

Stoves not proving satisfactory after a fair trial of 30 days, the price paid and expense of returning will be refunded.



All other kinds of Stoves, Furnaces and Ranges, together with Registers, Ventilators, and Copper, Steel, Sheet Iron and Tin Ware, constantly on hand and for sale at reduced prices!

LIKEWISE:

Penrhyn Marble Mantels!

An exceedingly elegant and cheap article, and one which retains its beauty and polish even in opposition to coal, gas, smoke and soil.

EGYPTIAN MARBLE

Is also kept on hand, which is recommended to the attention of architects, builders and others.

Valuable Real Estate,

AT BLUEHILL, MAINE.

For sale, by order of Administrator, at Public Auction, on the premises, on TUESDAY, Nov. 9th, at 10 o'clock, A. M.,

All the right, title, and interest, to the valuable Estate, formerly belonging to JOHN CHEEVER, merchant of said place, held by virtue of mortgage, for $1825 62, cents, with interest, amounting to $2046 65; and possession under it. Said estate is situated on Bluehill Bay, about one mile from the steamboat landing, and two from the village; consisting of a double two story Dwelling House, with five rooms on a floor, a commodious Store and Store House, Fish House, and Sheds, ship yard and extensive wharf facilities, with about one and a half acres of land under and adjoining. The buildings have been built but a few years and are in good condition.

This Estate is valuable as a Depot for trade, lying as it does on both sides of the main road leading to Sedgwick and Brooklyn and near the bridge now building. The Store house contains a shop fitted with shelves, counters, &c., suitable for a wholesale or retail business, and stands upon a wharf on an inner harbor with a deep smooth bottom, accessible at all stages of the tide, where vessels can lie in safety and load or unload directly to the store; in short, no place on the coast offers better advantages for conducting the fishing business in all its branches. The ship yard where several vessels have been built furnishes every facility for building purposes. For further particulars apply to B. W. HINCKLEY, Esq., at Bluehill, or the auctioneers, at No 34 Front Street Salem.

PATENTS. American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed, by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier* the continues to forward them free of expense—to prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *perfectly explaining* their inventions, and of consulting in respect to them *matters, in general, of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen years* practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford inventors, desirous of procuring Patents, assistance and information which no other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7 Prescot Street, Liverpool, dated

6th June, 1851.

To Professor Holloway,

SIR,—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the virulence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack, and the speedy cure, I think, speaks much in favor of your astonishing Pills.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March, 1851, by Major J. Walch.

Margaret M'Connigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless.—A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement—August 2d, 1851.

To Professor Holloway,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before. (Signed)

HENRY COE, North street, Lynn, Norfolk.

DR. MORSE'S INVIGORATING CORDIAL!

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c. The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Lassitude, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints it stands, unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed by the highest authorities of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the mental physic, so long sought for, and never before found, the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of Self Destruction, fear of Insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excess, or evil practices. It has been said by some that these disorders, epilepsy, &c., were incurable. This however is not the fact. DR. MORSE'S INVIGORATING CORDIAL has, and is constantly, curing these complaints relieving the mental and bodily incapacity of the unfortunate sufferers, as the following testimony of the names, received will conclusively show.

Dr. Woodward, of the Massachusetts Insane Hospital, writes of one of his patients, being cured by using this cordial, thus:—"It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has not had a single occasion since he commenced taking it, while before he had two or three a week. When he applied to me, says Dr. W., 'I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the meantime he purchased some of your Cordial, which has effected a cure. I am sure no other medicine would. I shall ever recommend it whenever an opportunity occurs.'"

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question, and the proprietors could produce host of the most conclusive testimony to show that the great reputation it enjoys was not accidently obtained, but is firmly based upon its positive and apparently mild, along virtues. In all directions are to be found the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS

have not in a single instance that has been authenticated, given their sanction to any other preparation for the above complaints. It has, in many violent and desperate cases, effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION

Of those who have used this Elixir is—"I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different described pills) without deriving any benefit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever, but benefitting one—but it now, I feel stronger, have had no emission since, although it is not three weeks. I am satisfied the use of a dozen bottles of yours will cure me."

Another says—"I had consulted several distinguished physicians. Some said I could not be cured, others prescribed this thing and that, but I found no relief till I procured some of your Cordial. I must say it completely cured me."

Another says—"I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION.—Ask for Dr. Morse's Cordial and take no other, as there are worthless imitations. Where its unrivalled excellence, fame and popularity, have brought it into the market. Do not buy, the most dishonest imitations of it. "B ware of all other Cordials, &c. (and try only this)."

It is put up in pint bottles, with the words Dr. Morse's Invigorating Cordial blown in the glass. Price $3 per bottle, 2 bottles $5, 6 bottles $12, and $24 per dozen.

N. B. Important advice accompanying each bottle. Notice. Persons unconscious of physical inability from causes above named may confidentially consult Dr. Taylor personally, or by letter, (post paid), at his office, 78 Sudbury street, Boston. From necessity, advice and medicine sent to. Persons in this state of such disability will be safe forwarded to the latter address.

Dr. M. is prepared to warrant a perfect cure in every case or take no pay.

Prepared by M. Morse, M. D., principal office 192 Broadway, New York city, and in Boston at the Dr's New England Office, 78 Sudbury street.

And sold in Bangor by D. BUGBEE, No 5 Kenduskeag Bridge, to Portland by Edward Mason, Middl Street

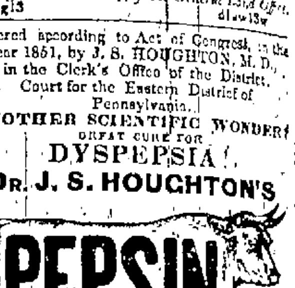
Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the Clerk's Office of the District Court for the Eastern District of Pennsylvania.

ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S



THE TRUE DIGESTIVE FLUID, OR GASTRIC FLUID,

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa.

"I DIGEST." Such is the true meaning of the word PEPSIN. It is the chief element, or Great Digesting Principle of the Gastric Juice—the solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it.

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL, BITTERS, ACIDS, or NAUSEOUS DRUGS. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG.

Half a teaspoonful of Pepsin infused in water, will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the Stomach.

SCIENTIFIC EVIDENCE.

The Scientific Evidence upon which this Remedy is based is the highest degree Curious and Remarkable.

Call on the Agent and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence, from Liebig's Animal Chemistry; Dr. Combe on Physiology of Digestion; Dr. Pereira on Food and Diet; Dr. John W. Draper, of New York University; Prof Dunglison's Physiology; Prof. Silliman, of Yale College; Dr. Carpenter's Physiology; &c., together with reports of cures from all parts of the United States.

PEPSIN IN FLUID AND POWDER.

Dr Houghton's Pepsin is prepared in Powder and in Fluid Form—and in Prescription vials for the use of Physicians. The Powder will be sent by Mail, free of Postage, for one Dollar, sent to Dr. Houghton, Philadelphia.

OBSERVE THIS!—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copy right and Trade Mark secured.

Sold by all Druggists and Dealers in Medicines—Price, ONE DOLLAR per bottle.

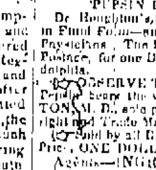
Lesage's Specific,



NEVER *failing remedy for thoroughly eradicating disease of the Urinary Organs*, such as Gonnorrhœa, Gleets, Whites, Strictures, Stone in the Bladder, &c., and needs but to be once used to be universally esteemed. The proprietor would respectfully caution those troubled with the above annoying complaints, to beware of those catch-every-things, which unprincipled individuals, without the slightest knowledge of the structure of the human system, recommend for every disease. Lesage's Specific is only intended for the cure of Private Diseases, and the thousands that have sent the unsolicited certificates vouch for its efficacy, and the better it is known the greater is the demand for it. How different from the various quack medicines which, when the unhappy patient has once used, no inducement can ever make try again—Lesage's Specific has been the remedy depended on by every class, the senator, the lawyer, the mechanic, the seaman and the dashing exquisite, have all tried it and found it truly the good Samaritan in the hour of trouble.

Dr Darby annexes extracts from some of his certificates:

U. S. Frigate Cumberland, 1851. I contracted a disease at Naples, and tried all the remedies suggested by the most experienced Surgeons without success. Lesage's Specific has restored to me the health I long despaired of—J. W. W.

Louisville, Ky.—I have much pleasure in stating that Lesage's Specific has cured me of a gleet of 22 months duration.—R. C. D.

Bangor, Me.—After having used two bottles I found myself cured of an old standing complaint in six days, and shall not fail to recommend you, should I know of any troubled as I was.—John Brown.

Sold by RALPH H. DARBY, Apothecary, No 31 Broad street, Boston. Price $1,00 per bottle; two bottles $1,75.

Orders, from the country, enclosing a remittance promptly attended to. A liberal discount made to Physicians, Apothecaries, Masters of Vessels and Expressmen.

Beautifying, Restoring, Embellishing and Curling the Hair.

THE virtues of Rosemary and Castor Oil are so well known that they require no encomiums—being two of the most common articles in use. They are here combined by an elaborate and intricate process, from the only recipe in America, and invariably warranted.

1st—To curl the hair beautifully.
2d—To remove dandruff effectually.
3d—To restore the hair to bald heads.
4th—To give all light hair a rich dark color.
5th—To prevent the hair from being oily or gray.
6th—To give to Whiskers a beautiful appearance.
7th—To have no injurious effects on the hair.
8th—To prevent the hair from falling off.
9th—To cure diseases of the Scalp.
10th—To cure the worst headaches.
11th—To dress false hair elegantly.
12—To do no injury to children's hair.

CAUTION.—Purchasers should be careful to get SPALDING'S, and no other, as worthless articles in the lions are sold, called Cream of Rosemary, Lustrals, &c.
